Quantics

# Regulatory Compliance

- ❑ Quantics Biostatistics – bioassay consultancy for more than 20 years
- ❑ Director of Statistics sits on USP
  
- ❑ **Membership Schemes**
  - GLP (7 Years)
  - ISO9001:2015 (11 Years)
- ❑ **Other Schemes**
  - GCP
  - GMP
  - 21 CFR pt11
  - ICH

GMP & 21 CFR pt11 Compliant

# Data Input & Plugins

- ❑ Import any delimited text file e.g. .CSV
- ❑ Other file formats (e.g. .xml, .xls) can be pre-processed by **plug-ins**
- ❑ Custom plug-ins can be built to suit individual customer needs

# Auto-Import/Export

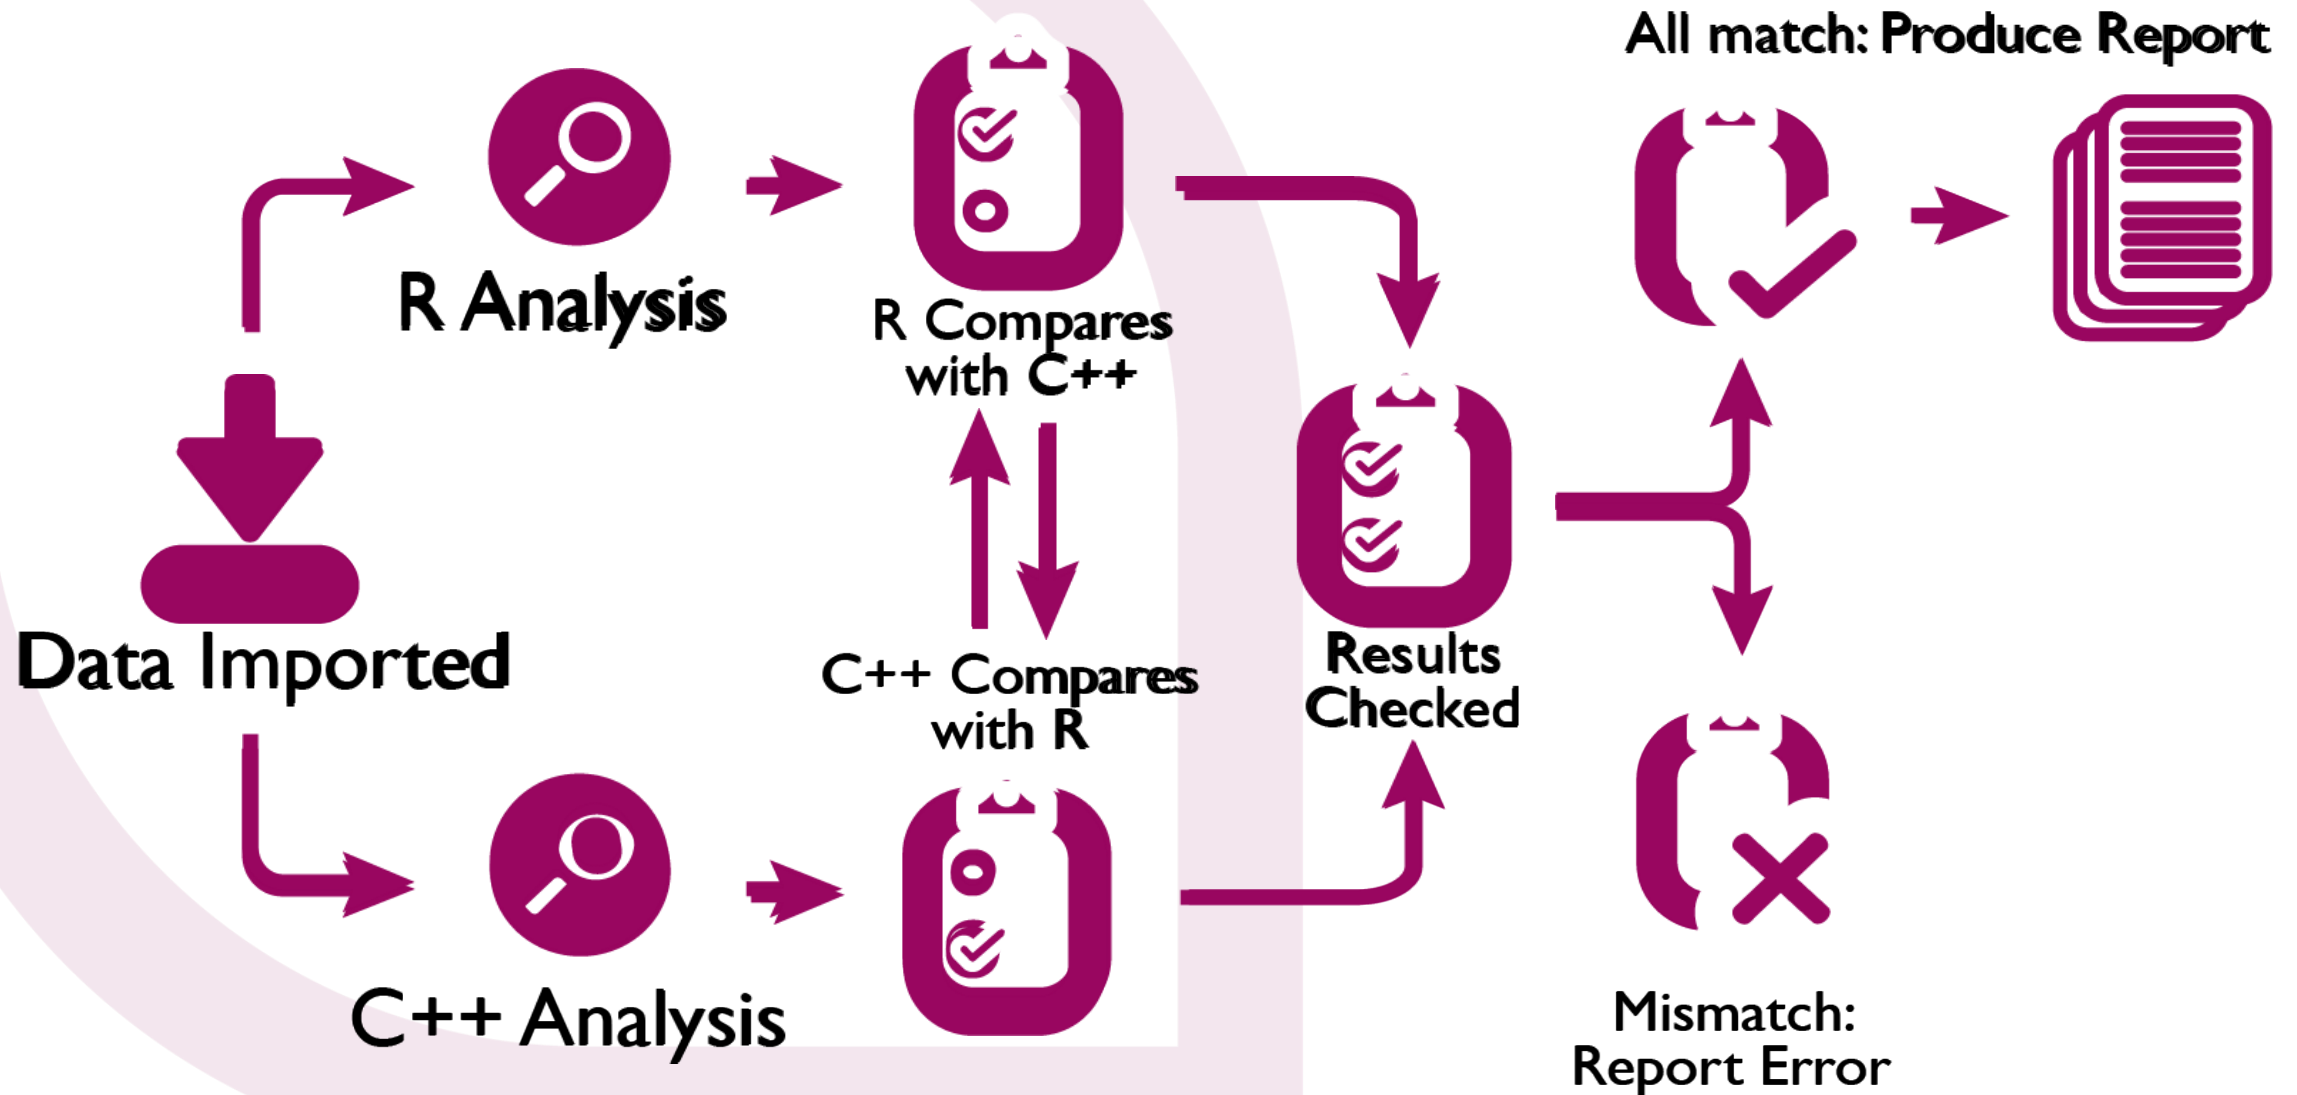

# CrtV™

- ❑ Continuous **real time** Validation
- ❑ Unique to QuBAS
- ❑ Derived from the aerospace industry
  - o “Fly-by-wire” aircraft require 100% QC in real time for reliability
  - o Use redundant systems and cross-check readings

# CrtV™: Diverse Self Checking Pairs

# CrtV™: Results

Process	Result	Date/time
Validation of installation		
R install check	PASS	26-November-2020 15:33
App install check	PASS	26-November-2020 15:33
Engine install check	PASS	26-November-2020 15:33
Licence check	PASS	26-November-2020 15:33
DSCPP Processes		
input XML validation	PASS	03-December-2020 07:46 UTC
Parsing report ID	PASS	03-December-2020 07:46 UTC
Parsing configuration file	PASS	03-December-2020 07:46 UTC
Parsing statistical model	PASS	03-December-2020 07:46 UTC
Parsing branch B configuration	PASS	03-December-2020 07:46 UTC
Analysis (branch A)	PASS	03-December-2020 07:46 UTC
Output validation for branch A	PASS	03-December-2020 07:46 UTC
Analysis (branch B)	PASS	03-December-2020 07:46 UTC
Output validation for branch B	PASS	03-December-2020 07:46 UTC
Check results from both branches	PASS	03-December-2020 07:46 UTC
Generate report from branch A	PASS	03-December-2020 07:46 UTC
Generate report from branch B	PASS	03-December-2020 07:46 UTC
Check that both reports are identical	PASS	03-December-2020 07:46 UTC

## Validation Results

This is a routine analysis: **TRUE**  
Audit trail is complete: **PASS**  
All systems, file operation and analysis validation checks: **PASS**  
Results 100% QC check: **PASS**  
Reports text 100% QC check: **PASS**  
  
**This report is valid for use in GxP systems**

# Unique Features

- All-in-one package
  - Supports every stage of bioassay workflow – from development to GMP – as standard
- User-friendly and intuitive
  - No formulae or programming – less training!
- Automatic Metadata Trending
  - Use monitoring room to isolate assay parameters and metadata for further investigation
