

BIOASSAYS

SCIENTIFIC APPROACHES AND REGULATORY STRATEGIES 2026

KNOWLEDGE SHARING AND CAPACITY BUILDING

- Sourcing, lot-to-lot variability, qualification, and stability are *important elements to consider for critical reagents*.
- *Increasing interaction is required* between bioassay teams and discovery research.
- There is an *increasing need for technically and scientifically strong teams*.
- Data is critical, and the field is *adapting ways to manage, mine, track, and trend different parameters* for early detection of signals and deviations in assay performance.

BIOASSAYS 2026 BY THE NUMBERS

Total Attendees

124

First-Time Attendees

53

Company Representation

58

Country Collaboration

14

Canada | Denmark | Germany | Hungary | Iceland | India | Japan | Netherlands | Slovenia | South Korea | Sweden | Switzerland | United Kingdom | United States
