

## KNOWLEDGE SHARING AND CAPACITY BUILDING

- *Regulatory agility and effectiveness can begin* by adopting standardized requirements and applying similar standards in regulatory review, assessment, and inspections.
- Alignment of requirements is *paramount in establishing trust strategies*.
- *Standardization of PAC management can be achieved* by adopting the framework of WHO PAC guidance.
- M4Q(R2) guideline will *streamline patients' and consumers' access* to lifesaving therapies.
- Cloud-based data sharing and assessments will lead to *harmonization, collaboration, and a single "Source of Truth"*.
