

KNOWLEDGE SHARING AND CAPACITY BUILDING

- *Expanding global work-sharing and foreign reliance* depends heavily on solving daily operational friction.
- Scaling platform methods, MIDD, and Established Conditions under ICH guidelines is *key to moving beyond conventional regulatory approaches*.
- While *global frameworks for innovative platform technologies are still developing*, global regulatory convergence remains the ultimate bottleneck.
- *Industry must continue to actively drive the conversation* on how prior knowledge and established conditions can foster robust global control strategies.
